

ABOUT THE DESIGN

PARIS “APPARTEMENT” AS DESIGN INSPIRATION

The tradition of familial Cuisine has been always passed at the family residence which could be an « apartment ». Cooking tips and mother's recipes are handed on over the generations, just like jewelry, watches or family albums. Dominique really treasures the spirit of inheritance that you could feel in your own « apartment » or your friend's one. All the restaurant design has been thinking to give that kind of atmosphere, where our guests could feel as in their proper place, with privacy, warmth and Parisian elegance. The soft texture and colors of wood and felt, mixed with modern and dignified touch of marble and vintage bricks creates a very sophisticated atmosphere.

On the wall, an art piece painted by Pierre-Marie Brisson, a long-time friend of him, in tribute to the great « Dancers » of Edgar Degas.
